## Sr. Interactive Developer at Sapient Global Markets

Address: L-1189, Mangol Puri, New Delhi – 110083  
+91 9873 924 772 | rakeshpersonal@gmail.com | <https://iamrakeshk.github.io>

### SUMMARY

Creative and Full-Stack Developer with **9 years** of experience doing Backend and Frontend Development adhering to best practices. Highly motivated, detail oriented, and passionate advocate of emerging frontend and backend technologies. Ability to learn new tools and concepts quickly while working independently or in a team environment and high-profile clients.

### OBJECTIVE

To secure a challenging position in the corporate sector where I can apply my technical skills and experience and be a part of team that helps to achieve the organization success.

### WORK EXPERIENCE

01

#### SAPIENT GLOBAL MARKET

Sr. Interactive Developer *(Since March 2015 to Present)*

##### Bank of Montreal (BMO - Client Connect)

Interactive developer specialized in JavaScript, Node JS, Express, Gulp, HTML, CSS and Web Standards. Have done large scale front-end development on BMO financial website as a lead front-end developer. Taken care of all the functionalities, API calls, raw JSON transformation, optimization of API calls, performance improvements and others.

Responsibilities as a Developer:

1. Render application on server side with the help of Node JS and Express.
2. Used EJS (embedded JS) to render data on front-end.
3. Created functionality of Download PDF and CSV for performance data and factsheet which contains the information of funds
4. Implemented the High Chart with custom modification to show the performance of funds.

Skills: JavaScript, ES5, Node, Express, Nodemon, EJS, Jamine Unit Test, lodash, JSHint, HTML/CSS, RWD, jQuery, GIT, Webstorm

##### Lloyds

Open banking uses 'APIs' to share information securely, without customer having to reveal his/her password. This is the same technology that tells an Uber driver who and where you are or which lets you sign in to other online accounts using Facebook.

Responsibilities as a Developer:

1. Developed the APIs for initiate, execute and enquiry of payment
2. Expose APIs to use of other part of bank
3. Consume APIs developed by other teams
4. Written the unit tests using Jasmine

Skills: JavaScript, ES6, Node, Loopback, Nodemon, Jamine Unit Test, lodash, ESLint, GIT, Webstorm

##### Thesys CAT

The CAT is a Consolidated Audit Trail that tracks orders throughout their lifecycle and identifies the exchanges and broker-dealers handling them, thus allowing regulators to more efficiently and accurately track activity in eligible securities — those under the jurisdiction of the Securities and Exchange Commission (the "SEC") — throughout the U.S. markets. The CAT is created by a joint plan (CAT NMS Plan) of the Plan Participants or simply "Participants."

Responsibilities as a Developer:

1. Define all Tech Stacks(i.e, node, express, es6, eslint, nodemon, pm2, winston logger, lodash, jasmine, supertest) and setup project
2. Developed the APIs for Reporter Portal and Query Tools
3. Expose APIs to use of frontend developers to display data on UI
4. Written Unit Tests with 100% of coverage using Jasmine

Skills: JavaScript, ES6, Node, Express, Nodemon, Jamine Unit Test, lodash, ESLint, GIT, VIM

02

**DAMCO GROUP****Sr. Software Engineer** *(Since March 2013 to March 2015)*
